

Mahian Ahmed

Web Developer

Sylhet, Bangladesh
devmahiancontact@gmail.com

I'm a frontend developer specializing in Vue and React.js, with over 4 years of experience in the most popular frontend technologies such as Next/Nuxt, MUI, AntD, Tailwind, HTML5, CSS3/SCSS, etc.

I've been coding for most of my life. I've created robust, complex, and performant Web Apps from scratch using the modern tools of Front-End.

Professional Experience

Web Developer

Freelance | May 2019 - Present

- Developed robust and performant Front-end user experience in both Vue and React ecosystems.
- Also created full-stack web applications using Firebase, Supabase.
- Integrated Rest and GraphQL Api on Front-end ensuring 100% success rate in data management.
- Optimized Api integration and UI component structure in order to gain maximum possible performance boost.
- Precisely followed through application designs and delivered fully functional product as expected and beyond.
